ABOUT US

DORUKSISTEM is the most established consultancy firm in Türkiye, collaborating with numerous international and local chemical product manufacturers, distributors, and end-users.

What sets **DORUKSISTEM** apart from most consultants is our comprehensive range of in-house services and a global network, offering support not only within Türkiye but also worldwide. With 18 years of industry experience, we are well-equipped to assist you in navigating the complexities of Turkish (**KKDIK**, **SEA**, **GBF**), European Union (**REACH**, **CLP**, **BPR**) and global regulations.

At **DORUKSISTEM**, our certified senior experts, with extensive top management experience and a vast regulatory network in the chemical industry worldwide, stand ready to provide you with the guidance you need for compliance with TR, EU and global regulations.

doruksistem

“We specialize in offering effective **KKDIK (TURKREACH)** compliance strategies and solutions to meet your needs.”

"We are approaching a pivotal moment regarding the **KKDIK** regulation. Get in touch with us for the updates."

YOUR COMPLIANCE PARTNER IN TURKIYE

Turkish Chemical Regulations

KKDIK, **TURKREACH**, came into effect on June 23, 2017 (Regulation No. 30105). It establishes a framework for the Registration, Evaluation, Authorization, and Restriction of Chemicals in the Turkish market.

Key Dates:

- Pre-registration is still open, for substances manufactured or imported in quantities ≥ 1 ton per year. (Still open)
- Registration by December 31, 2026 (>1000 mta), 2028 (10-1000 mta) and 2030 (1-100 mta), for pre-registered substances.

Only Representative Services:

- Companies outside Türkiye can appoint **DORUKSISTEM** as their Only Representative for **KKDIK** compliance.

GBF (TR-SDS) Regulation:

- Requires compliant Safety Data Sheets (SDS) in Turkish according to **KKDIK** Annex-II.
- SDSs must be prepared by **certified experts** in Turkey and submitted to the MoEUCC.

SEA (TR-CLP) Regulation:

- Demands classification and labeling notifications for hazardous substances.
- Substance-specific environmental, health, and safety information must be submitted in Turkish through a Turkish entity.

Compliance in Turkey:

- Ensure compliance with these regulations either through your Turkish entity or by appointing **DORUKSISTEM** as your Only Representative."
