Parquet Glue

Polyurethane Floor

COATINGS

Our oil based polyester polyol resins can be used in 2-component self-levelling polyurethane coatings and wood/plastic/ceramic/metal/glass adhesives. They impart stability and durability to the product to improve the mechanical properties and increase the functionality. They are the main ingredient in a component that cure with isocyanates.

Flexible Floor PU Coatings: TRIEST 163

Hard Floor PU Coatings: TRIEST 211

Water Insulation: TRIEST 163 and TRIEST 211

PU Adhesives: TRIEST 855

Stone Carpet Applications: TRIEST 820
