## UK Only Representative Services

Companies located outside Great Britain (GB) who are manufacturing substances or formulating mixtures may appoint an Only Representative in the UK in order to be able to register their substances. REACHLaw UK (Manchester) acts as the Only Representative carrying out all the required registration work required to successfully submit the dossiers to the UK HSE. We provide long-term legal presence and client representation in GB and carry out continuous data management tasks as required by the UK REACH Regulation.

- ▶ Only Representative Setup
- ▶ Continuous Compliance and Data Maintenance
- ▶ Only Representative change
- ▶ SME verification

**REACHLaw is one of the leading Only Representative service providers in Europe, representing hundreds of companies around the world.**

## UK REACH Authorisation Services

REACHLaw UK combines the best multidisciplinary expertise and deep understanding of business and regulatory requirements to provide a complete set of authorisation services. Our support ranges from defining the overall strategy and scope of UK REACH authorisation to performing all the work that is required during all stages of the authorisation process, from application preparation to post-submission support to finally the Decision support.
